Subject: RE: Notice of intent to the DVC

Hi Mark

A Notice of Intent should be submitted to the EPA in accordance with Section 27B of the Environmental Management and Pollution Control Act 1994. The intention of this process is that the EPA can confirm how they are dealing with it and what information /studies are required for assessment.

Council's role starts when you lodge the DA (which should contain the information required by the EPA)

Regards

Daniel Marr

Daniel,

On Friday the 10th of March 2023 the meeting with the EPA and the DVC, it was confirmed that we needed to submit a Notice of Intent to submit a Development Application regarding our proposed coal screening activity. Please find attached a brief outline of the situation and plan for the coal transition and trial activity planned to facilitate the transition from coal suppliers. This document is intended as a Notice of Intent to proceed with submitting a Development Application once we are clear on what is needed to be approved.

Feel free to contact me if you need any other details or clarification.

Regards

Mark Hutchinson
