**Subject:** Water Licenses below Meadow Bank hatchery

Good morning all,

Below is an overview of information regarding water allocations below the Meadowbank Hatchery as discussed.

- There are 84 water licence holders with 149 allocations in total below the hatchery
- The total volume of allocation is 194476.6 ML
- (Note this is just the main stem of the River Derwent below Meadowbank, not tributaries. Tributaries are not included as these would flow into the River Derwent and not be impacted by flows from below Meadowbank
- Some or the larger allocations include:
  - TasWater 73500 ML
  - Norske Skog 27000 ML
  - Tas irrigation 3600 ML noting some of their original allocation has been transferred to TasWater.
  - Aquaculture 32775 ML non consumptive (ie returned to the river)
  - This sums to 70% of the allocated volume.
- The licenses mentioned have an allocation that is taken directly from the River Derwent.

Kind Regards  
Mandy

Mandy Clarke (*she, her, hers*) | Deputy Secretary  
Primary Industry and Water Division
