

Underground Petroleum Storage Systems (UPSSs)

Notification of a New Storage System

Regulation 9 of the *Environmental Management and Pollution Control (Underground Petroleum Storage Systems) Regulations 2010* requires that a person who will be the system operator of a new storage system must, before the storage system is to be used for the first time, notify the Director in the approved form.

The requirement only applies to storage systems installed on or after 31 March 2010. This form is the approved form for the purposes of notifying the Director, as required by regulation 9.

*** = compulsory field**

UPSS Site Information

*Site name	<input type="text"/>		
*Site Street Address	<input type="text"/>		
*Suburb	<input type="text"/>	*Postcode	<input type="text"/>
*Telephone number	<input type="text"/>		

Storage System Location data

If you have access to the internet, this information is available on the LIST using the instructions below.

Property ID	<input type="text"/>
Title reference/s (volume/folio)	<input type="text"/>
Easting, Northing of underground storage system (GDA94)	<input type="text"/>

Note: If there is more than 100m between UPSSs then please include coordinates for each UPSS.

LIST instructions to obtain Property ID, title reference and Easting and Northing information:

1. Log onto www.thelist.tas.gov.au
2. Select LISTmap
3. Click on Layers (top right hand corner) and Add Layer+
4. Under Manage Layers scroll down to Land Parcel and Property and click on Cadastre, then click on the + next to Cadastral Parcels, close Manage Layer box
5. In the Search Box next to Maps (top left hand corner), type in Street Address or place or name and run the search
6. If a list appears, click on the name of most relevant choice
7. Zoom using scale on the left hand side
8. For Property ID/Title reference – click on the property that you want (the red pin) and the information will displayed in a box
9. For Eastings and Northings – click on green arrow in bottom left hand corner, select GDA 94 MGA Zone 55, hover the arrow over your estimation of the UPSS location and the Easting and Northing in GDA94 will be shown at the bottom left hand corner next to the green arrow. You may find locating areas on site to be easier if you select the Basemap “Google Satellite”.

Persons responsible for complying with regulations

The regulations specify whether a site operator, infrastructure owner or land owner is required to undertake particular requirements. Please fill in the relevant details below.

A system operator is defined as a person who manages the day-to-day operations of the storage system or, where there is no person who manages the day-to-day operations of the storage system, the infrastructure owner.

An infrastructure owner is defined as the sole or joint owner of the storage system (which may be the landowner by virtue of the underground storage system being a fixture on the land).

If one person has multiple roles, please repeat their details in each relevant section. If there are more than two system operators, infrastructure owners and/or landowners, please add their details to the box below.

	<i>System Operator #1 *</i>	<i>System Operator #2</i>
Name	<input type="text"/>	<input type="text"/>
Postal Address	<input type="text"/>	<input type="text"/>
	<input type="text"/>	<input type="text"/>
Street Address	<input type="text"/>	<input type="text"/>
	<input type="text"/>	<input type="text"/>
Phone Number	<input type="text"/>	<input type="text"/>
Email	<input type="text"/>	<input type="text"/>

UPSS information

*Type of activity conducted on site (please tick most relevant answer)

- | | | |
|--|-------------------------------------|---|
| <input type="checkbox"/> Service Station | <input type="checkbox"/> Farm | <input type="checkbox"/> Light Industry |
| <input type="checkbox"/> Heavy Industry | <input type="checkbox"/> Commercial | <input type="checkbox"/> Domestic |

Equipment

- *Total number of new UPSSs installed on site
- *Total capacity of all underground tanks in use on the site Litres
- *Do all new UPSSs contain the mandatory equipment designed and installed in accordance with the requirements of AS 4897? Yes No
- *Have all new storage systems passed an equipment integrity test, conducted after completion of all installation work(s)? Yes No

Loss monitoring

- *Which type of loss monitoring is being undertaken for the UPSS(s)
- Statistical Inventory Reconciliation Analysis Manual Tank Gauging
- Other

If other, please state method

Handling of Replaced UPSS

- * Were any UPSSs installed in an area where an existing UPSS was removed? Yes No
- If **Yes**, did scrutiny of the excavations detect any petroleum contamination (see Regulation 10(3) of the UPSS Regulations)? Yes No
- Were all other UPSS which ceased to be used, decommissioned in accordance with the UPSS Regulations? Yes No

Submitting form

I declare that the information I have given is true and correct to the best of my knowledge.

* Name

On behalf of
(person/company if
applicable)

* Signature

* Date
